

Drive-on Jet Ski Platform with Quay Connector Kit

SKU: PONNAJOTH_KPL

Gross Price: €4,462.50

Net Price: €3,750.00

Technical Specification

Attribute	Value
Displacement	770 kg
Dimension	400 cm x 148,5 cm x 32,5 cm
Color	Grey
Material	Polyethylene
Weight	165 kg
Usable area	5,92 qm
Shipping time	7-14 days
Production time of 100 pcs	20 days

Description

Drive-on Jet Ski Platform with Quay Connector Kit

Looking for a professional dry-docking solution to keep your personal watercraft (PWC) safe and dry next to a concrete or wooden quay? The offered **Drive-on Jet Ski Platform with Quay Connector Kit** (SKU: P0NNAJ0TH_KPL) is a state-of-the-art drive-on platform (dry dock) designed to let you drive your jet ski out of the water effortlessly. This specific kit comes complete with heavy-duty steel and rubber connector brackets specifically engineered to secure the platform directly to a stationary quay, concrete wall, or non-modular pier. Sourced from premium high-density polyethylene, this setup protects your fiberglass hull from marine growth, osmosis, and wave-induced docking damage.

The Sorfan jet ski drive-on platform is engineered for supreme ergonomics and user comfort. Its robust HDPE frame is fully frostproof and UV-resistant, allowing **our dry docks to remain safely in freezing lake ice** all winter without seasonal disassembly. Precision-engineered rollers (2 keel rollers + 8 bow rollers) guarantee smooth drive-on docking and effortless sliding entry back into the water. Symmetrical high static stability makes fueling, cleaning, wrapping, or boarding your PWC extremely comfortable and secure.

Technical Specification

Overall dimensions	400 x 148.5 x 35 cm (4.0 m x 1.485 m)
Dry weight (mass)	150 kg
Load Capacity / Buoyancy	450 kg
Drive-on Roller System	2 rolki pod kil + 8 rolek pod dziób
Material Sourced	Formowany rotacyjnie polietylen o wysokiej gęstości (HDPE) z filtrem UV + guma EPDM i stal konstrukcyjna cynkowana ogniowo
Connector Type Included	Dedykowany komplet łączników stalowych/EPDM do nabrzeża stałego (drewniane, betonowe, stalowe itp.)

Key Technical Features and Benefits:

- **Stationary Quay Mounting Kit:** Includes heavy-duty steel-rubber connector brackets for concrete, steel, or wood walls.
- **Winter Ice Overwintering Proof:** Extreme temperature resilience eliminates the need for seasonal disassembly.
- **Advanced Roller System:** 2 central keel rollers and 8 bow rollers ensure seamless drive-on and drive-off performance.
- **Seamless EU HDPE Craftsmanship:** Sourced from heavy-duty, rotomolded high-density polyethylene for durability.

- **100% Non-Skid Pattern:** Textured top surface provides ultimate slip resistance and boarding safety.

Available Accessories for Drive-On Docks

To fully customize your PWC dry dock setup, we offer a comprehensive range of matching high-performance accessories:

- [Mooring Cleat – Securely tie down your PWC and stabilize the dry dock.](#)
- [Safety Railing Series W \(1.12 m\) – Enhances boarding safety and passenger convenience.](#)
- [Pile Guide WS 5.4 kg \(WB series\) – Solid pile guide post anchoring for stabilization.](#)
- [Float Connector WL 2.3 kg \(WB series\) – For coupling additional side modules.](#)
- [Swim Ladder – Premium aluminum ladder for easy access from the water directly to the dock.](#)
